LETTER OF RECOMMENDATION

re: liza evseeva, intern / graphic designer, summer 2022

to whom it may concern:

liza evseeva interned at *version industries* during the summer of 2022, and brought her impressive creative skillset to several projects during that time.

liza would meet with me several times a week in order to discuss the various projects we're working on both from a logistical point of view, but also a creative one. i then trusted her to take care of one *version industries* project herself: the titles for the short film *superior* by erin vassilopoulos. the film was subsequently released on the *criterion collection's criterion channel*, where it remains to this day. i also then collaborated with her on three other projects, in which her fantastic draftsmanship and modern aesthetic intuitions took the fore: the *nuisance bear* and *superior* short film posters, and the *matte black: landscape* and *portrait* album covers.

liza is competent, observant, well organized, outgoing, an excellent communicator, and above all has become a trusted collaborator. i highly recommend her and believe she would be an asset to anyone's creative outfit; should you wish to discuss my recommendation further, please do not hesitate to call.

yours truly,

Caspar Newbolt
